

Cost Report Reimbursement Services

Cost reports are complex, ever-changing, and the key to successfully optimizing your facility's reimbursement and payment opportunities. The Rybar Group understands the importance that cost reports hold for healthcare entities on a variety of levels. Over the past three decades, we've cultivated specialized expertise that offers our clients the utmost confidence that the latest changes in regulations and hospital operations will be reflected in any cost reports filed or reviewed by our consultants.

Cost Report Preparation and Reviews

Through our Cost Report preparation and review services, you will receive the security that your cost report has been prepared in a timely and accurate manner, is reflective of current regulations, and optimizes current and future opportunities for your facility based on designation and services. Our cost report services include:

- Cost Report Preparation
- Pre-Filing Reviews
- Prior Year Cost Report Reviews

Cost Report Strategies

Our consultants utilize the knowledge and expertise gained from auditing, reviewing, and analyzing the vastly complex issues that have materially affected cost report reimbursement, to provide clients with guidance and recommendations related to your current operations and your potential filing elections. Our goal is to ensure that you are taking advantage of the various reimbursement

regulations to strategically optimize your reimbursement opportunities through current and future cost reports.
